

Comprehensive 5-Day Training Program for Energy Auditors

Preparatory Training and Examination for Certified energy auditor

Date: February 19-23,2017 / Venue: Al khobar

Training Outline & Format

This 5-day seminar (training and examination) provide the fundamental knowledge needed to evaluate how energy is being used in a facility, and to identify where consumption can be reduced, covering useful calculation methods and practical examples. The instructor will emphasize effective auditing basics while putting them in the context of the “big picture” and the bottom line.

- Classroom style delivered in English (February 19-23,2017 for four and half days).
- CEA Examination (February 23,2017 for half a day) – receive CEA® Certificate upon passing an examination.
- You must bring a hand calculator to the exam since the CEA test does not allow computers, tablets or cell phones to be used for calculations on the test.
